COURSE PROSPECTUS

www.evolvehealing.net

Welcome, Beautiful Soul...

My name is Kate Mantello and I am the proud founder and CEO of Evolve Healing Institute and Crystal & Co, and the author of the ground-breaking book 'Rock On – The Crystal Healing Handbook for Spiritual Rebels'...

I started Evolve because I was disillusioned with the global standard for crystal practitioner training (including my own training, back in 2007!).

It was all so fluffy and 'new age'!

I knew from a my 14+ years of professional healing experience that nobody goes to see a healing practitioner because they need their chakras aligned. They see a healing practitioner because they need help overcoming anxiety, or emotionally processing a divorce, or to release the trauma of miscarriage.

While there is definitely a deeply spiritual and energetic aspect to crystal healing, there is also a very real and grounded aspect that nobody seemed to be teaching or talking about (which goes far deeper than your 'average' crystal and chakra knowledge!).

Upon further research, I realized this was because most crystal healing books and courses were written by people with no genuine crystal healing experience (cue my move from humble healing practitioner to global crystal healing expert!).

There is a reason why over 20,000 students from all around the world have chosen to study with Evolve. From the ground up, we are an organization dedicated to integrity, truth, quality, and excellence. We don't just talk the talk – we walk the walk with our heads held high, as world leaders in the crystal healing industry.

So, Beautiful Soul...

I offer you a heartfelt welcome to our organization and to the world of crystals.

Whether you are a beginner at the start of your spiritual healing journey, or your goal is to become a world-class master healing practitioner - we've got you covered!

Our range of crystal and energy healing courses will take you on a transformational journey that aligns with you and your unique healing goals.

In this prospectus you will find information about our organization, our courses and our amazing coaching team. I also encourage you to read our student's stories on our testimonials page [HERE](#).

As an organization dedicated to lightwork, we believe in energetic resonance. We want you to fully resonate with our vibe before you enroll with us.

That's why we offer you this honest, info-packed course guide, so you can make the best decision moving forward. We hope you decide to journey further with us, but if not, that's fine too – we wish you heartfelt joy and abundance either way.

Welcome to Evolve!

FAQ

Do I need to complete the CCH course before the TCH course?

No. Everything that you learn in the CCH course is included in the TCH course, so you can jump straight to the TCH course! If you do start with the CCH course, we have a special upgrade course for our CCH graduates who want to become TCH Practitioners later.

Do you offer RPL for students who have completed training elsewhere?

We offer a maximum of 20% RPL to students who have completed reputable practitioner training elsewhere. This is offered on a case-by-case basis and should be discussed with our Student Support Manager before you enroll.

How do you assess and grade your practitioner courses?

To graduate from one of our practitioner courses students must complete a range of hands-on assessment tasks which are graded by their course coach. There is no 'fail' when it comes to grading student assessments. Rather, students are offered further guidance by our coaching team and are given the opportunity to resubmit their work, if needed.

Which course should I do?

The course that is best for you will depend on your unique circumstances and healing and career goals. If you are not sure and need some guidance, then please contact us and we will be happy to help you!

I don't have a credit card, can I still take advantage of your payment plans?

Credit card is the only way we can accept payment plan enrollments. Unfortunately we do not have the facilities to process payment plan payments using debit card, bank transfer or other payment methods. If you experience difficulty completing your enrollment due to card issues, please contact us for assistance.

FAQ

What happens if I enroll in a course then change my mind?

All enrollments in our beginner and intensive courses are final. Digital items cannot be returned to us, so once you purchase the course, it is yours. We understand the practitioner courses are a much larger investment, so we offer a 7 day refund guarantee for enrollments in our practitioner courses, less a \$50 admin fee or the value of the lessons that have been accessed and downloaded (whichever is higher).

We are very clear about what you can expect from your learning journey, so you can be as educated as possible before choosing to enroll in one of our courses. We even offer a free beginner course ([HERE](#)) so you can try us out before you enroll!

How many hours per week of study are there in the practitioner courses?

Our practitioner courses offer flexible, stress-free completion times. A slow-paced completion time would be 1-2 hours per week, whereas a fast completion time would require approximately 4-6 study hours per week. As long as all the course work is completed by the maximum course completion time, you can tailor your study to suit your lifestyle.

What crystals do I need and where can I source them?

As we specialize in hands-on study, you will need some crystals and equipment to complete the activities in the courses. You can supply these yourself, or you can purchase the recommended items from our online store [Crystal & Co](#). The introductory chapter of each course contains suggested items for you to complete the course activities.

FAQ

How are your courses delivered? How much text and video is there?

Our courses are delivered via text and video. The 'main' learning content comes from downloadable PDF textbooks. This is supported by lots of video tutorials and workbooks. Approximately 60% of the course content is text and 40% is video.

Your course prices are in AUD. What is that in my currency?

Although our courses are priced in Australian Dollars, overseas students are only charged the equivalent amount in their own currency. This is done automatically by your bank at the time of payment, so you don't have to do anything! Please keep in mind that currency exchange rates do fluctuate. Please click [HERE](#) for daily live exchange rates.

Where is your institute located?

Evolve is based in the Sunshine Coast, Australia. As we are an online organization, we do not have a physical building. Our coaches are located all over Australia, and we hope to have some international coaches joining our team soon!

We completely understand that you need to feel confident that you are signing up with a reputable organization!
